

Inventory Management

2nd Edition

Steven M. Bragg

Table of Contents

Chapter 1 - The Nature of Inventory	1
Learning Objectives	1
Introduction.....	1
Types of Inventory	1
Types of Inventory Demand	2
The Reorder Point	2
Safety Stock	3
Safety Time	4
Economic Order Quantity.....	4
Dependent Demand Reordering Systems	5
Visual Reordering Systems.....	6
Summary.....	7
Review Questions.....	8
Review Answers	9
Chapter 2 - Inventory Strategy	11
Learning Objectives	11
Introduction.....	11
Replenishment Strategy.....	11
Fulfillment Strategy	12
Customization Strategy.....	13
Startup Outsourcing Strategy	13
Summary.....	14
Review Questions.....	15
Review Answers	16
Chapter 3 - Inventory Policies.....	17
Learning Objectives	17
Introduction.....	17
Receiving Policy	17
Inventory Access Policy	17
Batch Sizing Policy	18
Production Run Size Policy.....	18
Resource Maximization Policy	18
Substitutions Policy.....	19
Customer Service Policy.....	19
Pricing Deals Policy	19
Returns Policy	20
Collections Take-Back Policy.....	21
Summary.....	21
Review Questions.....	22
Review Answers	23
Chapter 4 - Materials Planning and Forecasting	25
Learning Objectives	25
Introduction.....	25
The Evils of Forecasting	25
The Bullwhip Effect.....	26
Forecasting for Style Items	26
Forecasting Service Parts.....	27
Forecasting by Product Families	28
Forecasting Segmentation	28
Forecasting Collaboration	28
Problems with the Sales Department Forecast.....	29

Table of Contents

Forecasting with Customer Linkages.....	29
Modeling of Materials Planning.....	30
Inventory Management by Classification.....	30
Product Substitution Options.....	31
Supplier Lead Time Adjustment.....	31
Internal Lead Time Adjustment.....	32
Job Releases to Production.....	32
Store Finished Goods at Pre-Configuration Level.....	33
Cost-Effective Inventory Reduction.....	33
Reduction of Inventory Returns.....	34
Consigned Inventory.....	34
Elevate the Materials Manager Position.....	35
Summary.....	36
Review Questions.....	37
Review Answers.....	38
Chapter 5 - Purchasing Activities.....	39
Learning Objectives.....	39
Introduction.....	39
Total Supplier Cost.....	39
Materials Sourcing Considerations.....	40
Manual Purchasing.....	41
Systems-Based Purchasing.....	41
Spend Management.....	42
The Volume Purchase Discount Conundrum.....	44
The Auction Option.....	44
Match Contract Length to Pricing Trends.....	45
Streamlined Purchasing Approvals.....	45
Purchase Order Shutdowns.....	46
Supplier Delivery Arrangements.....	46
Measure Suppliers.....	47
Negative Effects of the Purchase Price Standard.....	48
Summary.....	48
Review Questions.....	49
Review Answers.....	50
Chapter 6 - Inventory Receiving.....	51
Learning Objectives.....	51
Introduction.....	51
Touch Reduction.....	51
Advance Shipping Notices.....	51
Delay Low-Priority Receipts.....	52
Minimize Travel Time with Dock Assignments.....	52
Organize around Length of Delivery Time Slots.....	52
Affix Labels at Receiving.....	53
Initial Data Collection.....	53
The Need for Receipts Inspection.....	53
Repack at Receiving.....	54
Route Goods Directly to Production.....	54
Route Remaining Goods to Storage.....	55
Time-Phase Shipping and Receiving.....	55
Reverse Logistics.....	56
Summary.....	56
Review Questions.....	58
Review Answers.....	59

Table of Contents

Chapter 7 - Putaways and Picking	61
Learning Objectives.....	61
Introduction.....	61
Putaway and Picking Equipment.....	61
Automated Storage and Retrieval Systems.....	63
Automated Storage and Retrieval Vehicles.....	64
The Impact of Mechanization.....	64
Putaways.....	65
Reslotting.....	66
Picking.....	66
Single Order Picking Tours.....	67
Pick to Shipping Container.....	67
Single Line Picking Tours.....	67
Batch Picking Tours.....	68
Dedicated “C” Level Picking Tours.....	68
Wave Picking.....	68
Forward Picking.....	68
Zone Picking.....	69
Field Picking.....	70
Additional Picking Efficiencies.....	70
Separate Forward-Area Picking.....	70
Carousel Picking Pods.....	71
Robots Move Mobile Shelves to Pickers.....	71
Prepackage Goods in Picking Increments.....	71
Picking with Scales.....	72
WMS-Directed Picking Issues.....	72
The Cost of Picking Errors.....	72
Kitting.....	73
Replenishment.....	74
The Simultaneous Replenishment and Picking Conundrum.....	74
Interleaving.....	75
Summary.....	75
Review Questions.....	76
Review Answers.....	77
Chapter 8 - The Impact of Production on Inventory	79
Learning Objectives.....	79
Introduction.....	79
The Produce to Forecast (Push) System.....	79
The Produce to Order (Pull) System.....	80
Organize the Factory around Products.....	81
Fast Equipment Changeovers.....	81
Kanban Notifications.....	82
Achieve First-Pass Quality.....	82
Enhance Feedback Loop to Suppliers.....	83
Move Cells Closer Together.....	83
Inventory In-Process Identification.....	83
Reduce In-Process Container Sizes.....	84
Locate Cells near Common Inventory.....	84
Purchase Less-Complex Machinery.....	84
Manage Inventory around the Bottleneck.....	85
Adjust Batch Sizes.....	86
Shorten the Production Line.....	88
Segment the Production Line.....	88
Process Control.....	88
Assign Parts to the Same Machine.....	89
Unscheduled Downtime Avoidance.....	89

Table of Contents

Mistake Management.....	90
Eliminate Causes of Rework.....	91
Expediting.....	91
Delay Final Assembly.....	92
Move Production to Raw Materials.....	92
Human Resources Issues.....	92
Summary.....	92
Review Questions.....	94
Review Answers.....	95
Chapter 9 - Inventory Shipping.....	97
Learning Objectives.....	97
Introduction.....	97
Match Production to Full Truckload Requirements.....	97
Shipping Container Considerations.....	97
Pallet and Case Load Planning.....	98
Container Load Planning.....	98
Dunnage Usage for In-Transit Inventory Protection.....	99
Shipping Data Automation.....	99
Frequent Delivery Service.....	99
Transportation Management Systems.....	99
Track Shipper Performance.....	100
Summary.....	100
Review Questions.....	101
Review Answers.....	102
Chapter 10 - Obsolete Inventory.....	103
Learning Objectives.....	103
Introduction.....	103
Obsolete Inventory Identification.....	103
Obsolete Inventory Disposal.....	104
Obsolete Inventory Prevention.....	105
NCNR Inventory Reduction.....	106
Summary.....	106
Review Questions.....	108
Review Answers.....	109
Chapter 11 - Product Development.....	111
Learning Objectives.....	111
Introduction.....	111
Minimize the Number of Parts Used.....	111
Eliminate Identical Parts.....	111
Design for Broad Tolerance.....	112
Match Materials Quality to Design Specifications.....	112
Design for Assembly.....	112
Design around Limited Availability Components.....	112
Design around Lifetime Buy Decisions.....	113
Advance Material Purchase Issues.....	113
Expand the Design Team.....	114
Include Suppliers in the Design Process.....	114
Review the Bill of Materials.....	115
Use a BOM Temporary Substitution Procedure.....	116
Review Inventory Returns and Shortages.....	116
The Customer Complaint Feedback Loop.....	117
Review and Approve Engineering Change Orders.....	117
Reduce the Number of Products.....	117
Customer Termination Considerations.....	118

Table of Contents

Reduce Product Options	118
Summary	118
Review Questions	119
Review Answers	120
Chapter 12 - Inventory Record Accuracy	121
Learning Objectives	121
Introduction.....	121
Inventory Record Errors.....	121
Environmental Factors Impacting Record Accuracy.....	122
Employee Factors Impacting Record Accuracy	123
Labeling Issues Impacting Record Accuracy	123
Inventory Naming Conventions Impacting Record Accuracy.....	124
Excessive Data Recordation	125
Inventory Data Collection Methods.....	125
The Data Entry Backlog Problem	127
Backflushing	127
Controls over Record Accuracy.....	128
Inventory Review Reports	129
The Negative Inventory Balance	129
Inventory Auditing	130
The Corrective Action System.....	130
Summary.....	131
Review Questions.....	132
Review Answers	133
Chapter 13 - Inventory Counting and Reconciliation.....	135
Learning Objectives	135
Introduction.....	135
The Periodic Inventory System	135
The Perpetual Inventory System	136
How to Set Up Inventory Record Keeping	136
The Physical Inventory Count	137
Concerns about the Physical Inventory Count.....	139
Physical Count Improvements.....	139
Cycle Counting	140
Control Group Analysis	142
100% Count Analysis.....	143
Inventory Reconciliation.....	143
Summary.....	145
Review Questions.....	146
Review Answers	147
Chapter 14 - The Supply Chain	149
Learning Objectives	149
Introduction.....	149
Sole Source Inventory Purchases	149
Supplier Assessment	150
Enhanced Supplier Relations.....	150
Foreign Sourcing Considerations	151
The Lead Supplier	152
The Stable Production Schedule.....	152
Automatic Supplier Replenishment	153
The Total Inventory Concept.....	153
Downstream Postponement.....	154
Supply Chain Buffer Stock Reduction.....	154
Reduce Supplier Delivery Times	155

Table of Contents

Aggregate Deliveries with Freight Forwarders	155
Suppliers Own On-Site Inventory	156
Suppliers Pre-Configure Goods	156
Reserve Supplier Capacity.....	157
Vertical Integration.....	157
Supply Chain Cooperation	157
Supply Chain Configuration Issues	158
Supply Chain Disruption	159
Summary.....	160
Review Questions.....	161
Review Answers	162
Chapter 15 - Warehousing Efficiencies	163
Learning Objectives	163
Introduction.....	163
The Cost of Inventory Storage	163
The Cost of Travel Time	164
Cross Docking	165
Flow-Through Warehousing.....	165
Flow-Through Warehouse Designs	166
Flow-Through Warehouse Equipment.....	166
When to Use Flow-Through	166
Storage by Fixed Location	167
Warehouse within a Warehouse.....	168
Warehouse by Customer	168
Warehouse by Distribution Channel	168
Warehouse by Product Family	168
Warehouse by Season.....	169
Warehouse by Pallet and Case	169
Warehouse by Order Completion Zone	170
Storage by ABC Classification	170
Storage Based on the Putaway to Picking Ratio.....	170
Efficiencies within Storage Racks.....	171
Accessibility of Storage Bins	171
Co-Locate Correlated Items	171
Size Picking Bins to Store Sufficient Quantities	171
Aggregate Storage Locations.....	172
Size Cartons to Customer Order Sizes.....	172
Use Standard Containers to Store Inventory.....	172
Drop Shipping.....	173
Eliminate Informal Storage.....	174
Store Inventory at Production.....	174
Design Storage for Less than Peak Demand.....	175
Warehouse Management System	176
Distribution Requirements Planning	177
Fair Shares Analysis.....	177
Ship Overnight from a Single Location	178
Retain Low-Turnover Inventory at Warehouse Level	178
Combine Warehouse Missions.....	179
Adjust the Warehouse Network.....	179
Ship from Stores.....	180
Summary.....	180
Review Questions.....	181
Review Answers	182
Chapter 16 - Warehouse Storage Systems.....	183
Learning Objectives	183

Table of Contents

Introduction.....	183
Inventory Storage Characteristics	183
Storage Systems	184
Beam Height.....	186
Honeycombing Effects	187
Automated Dispensing Units.....	187
Carousels	188
The Pallet.....	189
Pallet Loading.....	189
Liquid Storage	190
Summary.....	190
Review Questions.....	191
Review Answers	192
Chapter 17 - The Warehouse Layout	193
Learning Objectives	193
Introduction.....	193
Planning the Warehouse Layout	193
Sizing the Receiving Area.....	195
Sizing the Inspection Area	195
Sizing and Locating Dock Doors	196
Treatment of Aisles.....	196
Treatment of Building Supports.....	197
Warehouse Security	197
Warehouse Sizing Considerations	197
Considerations for Acquiring Warehouse Space.....	197
Summary.....	198
Review Questions.....	199
Review Answers	200
Chapter 18 - Inventory Measurements.....	201
Learning Objectives	201
Introduction.....	201
Overview of Inventory Measurements	201
Average Inventory Calculation	201
Inventory Turnover Measurements.....	202
Inventory Turnover Ratio.....	203
Raw Materials Turnover	203
Work-in-Process Turnover	204
Finished Goods Turnover.....	205
Inventory Accuracy Percentage	205
Excess Inventory Measurements	206
Obsolete Inventory Percentage	206
Percent of Inventory Greater than XX Days.....	207
Returnable Inventory Valuation	208
Opportunity Cost of Excess Inventory.....	208
Honeycombing Percentage.....	209
Summary.....	210
Review Questions.....	211
Review Answers	212
Glossary.....	213
Index	217
