

Inventory Management

3rd Edition

Steven M. Bragg

Table of Contents

Chapter 1 - The Nature of Inventory	1
Learning Objectives	1
Introduction.....	1
Types of Inventory	1
Types of Inventory Demand	2
The Reorder Point	2
Safety Stock	3
Safety Time	4
Economic Order Quantity.....	4
Dependent Demand Reordering Systems	5
Visual Reordering Systems.....	6
Summary.....	7
Review Questions.....	8
Review Answers	9
Chapter 2 - Inventory Strategy	11
Learning Objectives	11
Introduction.....	11
Replenishment Strategy.....	11
Fulfillment Strategy	12
Customization Strategy.....	13
Startup Outsourcing Strategy	14
Summary.....	14
Review Questions.....	15
Review Answers	16
Chapter 3 - Inventory Policies.....	17
Learning Objectives	17
Introduction.....	17
Receiving Policy	17
Inventory Access Policy	17
Batch Sizing Policy	18
Production Run Size Policy.....	18
Resource Maximization Policy	18
Substitutions Policy.....	19
Customer Service Policy.....	19
Pricing Deals Policy	19
Returns Policy	20
Collections Take-Back Policy.....	21
Summary.....	21
Review Questions.....	22
Review Answers	23
Chapter 4 - Materials Planning and Forecasting	25
Learning Objectives	25
Introduction.....	25
The Evils of Forecasting	25
The Bullwhip Effect.....	26
Forecasting for Style Items	26
Forecasting Service Parts.....	27
Forecasting by Product Families	28
Forecasting Segmentation	28
Forecasting Collaboration	28
Problems with the Sales Department Forecast.....	29

Table of Contents

Forecasting with Customer Linkages.....	29
Modeling of Materials Planning.....	30
Inventory Management by Classification.....	30
Product Substitution Options.....	31
Supplier Lead Time Adjustment.....	31
Internal Lead Time Adjustment.....	32
Job Releases to Production.....	32
Store Finished Goods at Pre-Configuration Level.....	33
Cost-Effective Inventory Reduction.....	33
Reduction of Inventory Returns.....	34
Consigned Inventory.....	34
Elevate the Materials Manager Position.....	35
Summary.....	36
Review Questions.....	37
Review Answers.....	38
Chapter 5 - Purchasing Activities.....	39
Learning Objectives.....	39
Introduction.....	39
Total Supplier Cost.....	39
Materials Sourcing Considerations.....	40
Manual Purchasing.....	41
Systems-Based Purchasing.....	41
Spend Management.....	42
The Volume Purchase Discount Conundrum.....	44
The Auction Option.....	44
Match Contract Length to Pricing Trends.....	45
Streamlined Purchasing Approvals.....	45
Purchase Order Shutdowns.....	46
Supplier Delivery Arrangements.....	46
Measure Suppliers.....	47
Negative Effects of the Purchase Price Standard.....	48
Summary.....	48
Review Questions.....	49
Review Answers.....	50
Chapter 6 - Inventory Receiving.....	51
Learning Objectives.....	51
Introduction.....	51
Touch Reduction.....	51
Advance Shipping Notices.....	51
Delay Low-Priority Receipts.....	52
Minimize Travel Time with Dock Assignments.....	52
Organize around Length of Delivery Time Slots.....	52
Affix Labels at Receiving.....	53
Initial Data Collection.....	53
The Need for Receipts Inspection.....	53
Repack at Receiving.....	54
Route Goods Directly to Production.....	54
Route Remaining Goods to Storage.....	55
Time-Phase Shipping and Receiving.....	55
Reverse Logistics.....	56
Summary.....	56
Review Questions.....	58
Review Answers.....	59

Table of Contents

Chapter 7 - Putaways and Picking	61
Learning Objectives	61
Introduction.....	61
Putaway and Picking Equipment.....	61
Automated Storage and Retrieval Systems	63
Automated Storage and Retrieval Vehicles	64
The Impact of Mechanization	64
Putaways.....	65
Reslotting	66
Picking.....	66
Single Order Picking Tours	67
Pick to Shipping Container.....	67
Single Line Picking Tours.....	67
Batch Picking Tours.....	68
Dedicated “C” Level Picking Tours	68
Wave Picking.....	68
Forward Picking.....	68
Zone Picking.....	69
Field Picking	70
Additional Picking Efficiencies.....	70
Separate Forward-Area Picking	71
Carousel Picking Pods.....	71
Robots Move Mobile Shelves to Pickers.....	71
Prepackage Goods in Picking Increments	72
Picking with Scales	72
WMS-Directed Picking Issues	72
The Cost of Picking Errors	72
Kitting.....	73
Replenishment.....	74
The Simultaneous Replenishment and Picking Conundrum.....	75
Interleaving.....	75
Summary.....	75
Review Questions.....	77
Review Answers	78
Chapter 8 - The Impact of Production on Inventory	79
Learning Objectives	79
Introduction.....	79
The Produce to Forecast (Push) System.....	79
The Produce to Order (Pull) System.....	80
Organize the Factory around Products.....	81
Fast Equipment Changeovers.....	81
Kanban Notifications.....	82
Achieve First-Pass Quality	82
Enhance Feedback Loop to Suppliers.....	83
Move Cells Closer Together.....	83
Inventory In-Process Identification	83
Reduce In-Process Container Sizes.....	84
Locate Cells near Common Inventory	84
Purchase Less-Complex Machinery.....	84
Manage Inventory around the Bottleneck	85
Adjust Batch Sizes.....	86
Shorten the Production Line.....	88
Segment the Production Line.....	88
Process Control	88
Assign Parts to the Same Machine	89
Unscheduled Downtime Avoidance.....	89

Table of Contents

Mistake Management.....	91
Eliminate Causes of Rework.....	91
Expediting.....	91
Delay Final Assembly.....	92
Move Production to Raw Materials.....	92
Human Resources Issues.....	92
Summary.....	93
Review Questions.....	94
Review Answers.....	95
Chapter 9 - Inventory Shipping.....	97
Learning Objectives.....	97
Introduction.....	97
Match Production to Full Truckload Requirements.....	97
Shipping Container Considerations.....	97
Pallet and Case Load Planning.....	98
Container Load Planning.....	98
Dunnage Usage for In-Transit Inventory Protection.....	99
Shipping Data Automation.....	99
Frequent Delivery Service.....	99
Transportation Management Systems.....	99
Track Shipper Performance.....	100
Summary.....	100
Review Questions.....	101
Review Answers.....	102
Chapter 10 - Obsolete Inventory.....	103
Learning Objectives.....	103
Introduction.....	103
Obsolete Inventory Identification.....	103
Obsolete Inventory Disposal.....	104
Obsolete Inventory Prevention.....	105
NCNR Inventory Reduction.....	106
Summary.....	106
Review Questions.....	108
Review Answers.....	109
Chapter 11 - Product Development.....	111
Learning Objectives.....	111
Introduction.....	111
Minimize the Number of Parts Used.....	111
Eliminate Identical Parts.....	111
Design for Broad Tolerance.....	112
Match Materials Quality to Design Specifications.....	112
Design for Assembly.....	112
Design around Limited Availability Components.....	113
Design around Lifetime Buy Decisions.....	113
Advance Material Purchase Issues.....	113
Expand the Design Team.....	114
Include Suppliers in the Design Process.....	114
Review the Bill of Materials.....	115
Use a BOM Temporary Substitution Procedure.....	116
Review Inventory Returns and Shortages.....	116
The Customer Complaint Feedback Loop.....	117
Review and Approve Engineering Change Orders.....	117
Reduce the Number of Products.....	118
Customer Termination Considerations.....	118

Table of Contents

Reduce Product Options	118
Summary	119
Review Questions	120
Review Answers	121
Chapter 12 - Inventory Record Accuracy	123
Learning Objectives	123
Introduction.....	123
Inventory Record Errors.....	123
Environmental Factors Impacting Record Accuracy.....	124
Employee Factors Impacting Record Accuracy	125
Labeling Issues Impacting Record Accuracy	125
Inventory Naming Conventions Impacting Record Accuracy.....	126
Excessive Data Recordation	127
Inventory Data Collection Methods.....	127
The Data Entry Backlog Problem	129
Backflushing	129
Controls over Record Accuracy.....	130
Inventory Review Reports	131
The Negative Inventory Balance	131
Inventory Auditing	132
The Corrective Action System.....	132
Summary	133
Review Questions.....	134
Review Answers	135
Chapter 13 - Inventory Counting and Reconciliation.....	137
Learning Objectives	137
Introduction.....	137
The Periodic Inventory System	137
The Perpetual Inventory System	138
How to Set Up Inventory Record Keeping	138
The Physical Inventory Count	139
Concerns about the Physical Inventory Count.....	141
Physical Count Improvements.....	141
Cycle Counting	142
Control Group Analysis	144
100% Count Analysis.....	145
Inventory Reconciliation.....	145
Summary.....	147
Review Questions.....	148
Review Answers	149
Chapter 14 - The Supply Chain	151
Learning Objectives	151
Introduction.....	151
Sole Source Inventory Purchases	151
Supplier Assessment	152
Enhanced Supplier Relations.....	152
Foreign Sourcing Considerations	153
The Lead Supplier	154
The Stable Production Schedule.....	154
Automatic Supplier Replenishment	155
The Total Inventory Concept.....	155
Downstream Postponement.....	156
Supply Chain Buffer Stock Reduction.....	156
Reduce Supplier Delivery Times	157

Table of Contents

Aggregate Deliveries with Freight Forwarders	157
Suppliers Own On-Site Inventory	158
Suppliers Pre-Configure Goods	158
Reserve Supplier Capacity.....	159
Vertical Integration.....	159
Supply Chain Cooperation	159
Supply Chain Configuration Issues	160
Supply Chain Disruption	161
Summary.....	162
Review Questions.....	163
Review Answers	164
Chapter 15 - Warehousing Efficiencies	165
Learning Objectives	165
Introduction.....	165
The Cost of Inventory Storage	165
The Cost of Travel Time	166
Cross Docking	167
Flow-Through Warehousing.....	167
Flow-Through Warehouse Designs	168
Flow-Through Warehouse Equipment.....	168
When to Use Flow-Through	168
Storage by Fixed Location	169
Warehouse within a Warehouse.....	170
Warehouse by Customer	170
Warehouse by Distribution Channel	170
Warehouse by Product Family	170
Warehouse by Season.....	171
Warehouse by Pallet and Case	171
Warehouse by Order Completion Zone	172
Storage by ABC Classification	172
Storage Based on the Putaway to Picking Ratio.....	172
Efficiencies within Storage Racks.....	173
Accessibility of Storage Bins	173
Co-Locate Correlated Items	173
Size Picking Bins to Store Sufficient Quantities	173
Aggregate Storage Locations.....	174
Size Cartons to Customer Order Sizes.....	174
Use Standard Containers to Store Inventory.....	174
Drop Shipping.....	175
Eliminate Informal Storage.....	176
Store Inventory at Production.....	176
Design Storage for Less than Peak Demand.....	177
Warehouse Management System	178
Distribution Requirements Planning	179
Fair Shares Analysis.....	179
Ship Overnight from a Single Location	180
Retain Low-Turnover Inventory at Warehouse Level	180
Combine Warehouse Missions.....	181
Adjust the Warehouse Network.....	181
Ship from Stores.....	182
Summary.....	182
Review Questions.....	183
Review Answers	184
Chapter 16 - Warehouse Storage Systems.....	185
Learning Objectives	185

Table of Contents

Introduction.....	185
Inventory Storage Characteristics	185
Storage Systems	186
Beam Height.....	188
Honeycombing Effects	188
Automated Dispensing Units.....	189
Carousels	190
The Pallet.....	190
Pallet Loading.....	191
Liquid Storage	191
Summary.....	192
Review Questions.....	193
Review Answers	194
Chapter 17 - The Warehouse Layout	195
Learning Objectives	195
Introduction.....	195
Planning the Warehouse Layout	195
Sizing the Receiving Area.....	197
Sizing the Inspection Area	197
Sizing and Locating Dock Doors	198
Treatment of Aisles.....	198
Treatment of Building Supports.....	199
Warehouse Security	199
Warehouse Sizing Considerations	199
Considerations for Acquiring Warehouse Space.....	199
Summary.....	200
Review Questions.....	201
Review Answers	202
Chapter 18 - Inventory Measurements.....	203
Learning Objectives	203
Introduction.....	203
Overview of Inventory Measurements	203
Average Inventory Calculation	203
Inventory Turnover Measurements.....	204
Inventory Turnover Ratio.....	205
Raw Materials Turnover	205
Work-in-Process Turnover	206
Finished Goods Turnover.....	207
Inventory Accuracy Percentage	207
Excess Inventory Measurements	208
Obsolete Inventory Percentage	208
Percent of Inventory Greater than XX Days	209
Returnable Inventory Valuation	210
Opportunity Cost of Excess Inventory.....	210
Honeycombing Percentage.....	211
Summary.....	212
Review Questions.....	213
Review Answers	214
Glossary.....	215
Index	219
